

FROM HARDSHIP TO STABILITY

ECONOMIC CONDITIONS FOR ALICE IN THE TRI-COUNTY REGION

The **Economic Viability Dashboard** reveals whether the conditions in three key areas – work, housing, and community supports – strengthen or weaken opportunities for households below the ALICE Threshold to reach stability. These families are either in poverty or are **ALICE (Asset Limited, Income Constrained, Employed)** – earning above the poverty level but less than the cost of basics.

With more than 30 new ALICE variables, this Dashboard spotlights needs and pairs them with promising practices – paving the way for targeted solutions for these households.

Wages for common jobs often don't cover the basics.

61%

Full-time workers, below ALICE threshold

\$12.21/hr.

Average wage for retail workers below ALICE threshold

High rents and barriers to homeownership can undermine stability.

53%

Owner households below ALICE threshold, spending 30% or more on mortgage

72%

Renter households below ALICE threshold, spending 30% or more on rent

44%

Renter households below ALICE threshold, spending more than the median mortgage costs on rent

Community resources can support overall well-being and ability to work.

80%

Working-age people below ALICE Threshold with health insurance

68%

Households below ALICE Threshold with high speed internet at home

37%

Preschool enrollment, 3-4 year-olds below ALICE Threshold
